Mrs. Philip H. Smart, of No. 125
Smith street, South Portland, Me., says. While attending school I caught cold and suffered from weakness for about a year. I was all run down and did not have a particle of color. My parents thought I was going into consumption. I was short of breath and was subject to fainting spells. My limbs seemed to be all tired out and I had hardly enough strength to get around. My stomach was so weak that whatever I ate caused me a great deal of pain. My kidneys were affected and I kept growing weaker. I finally had to quit school. I did not improve much under the doctor's treatment of about six months and later gave Dr. Williams' Pink Pills & trial. soon I could see that I was gaining in flesh and strength. There was plenty of color in my cheeks. My appetite im-proved and I was cured. I certainly think Dr. Williams' Pink Pills are a wonderful remedy and cheerfully recommend them.

Philadelphia furnished not only the greatest ship designer in the United States, but also the best ship carver in the world, William Rush. In this field he was without a rival, and to a wonderful technical skill be added an ar-

composition. He was the first carver to give an idea of life and motion to a ship's figurehead. Each of his figureheads was either the lifelike representation of a person or some symbolic conception expressed in exquisite carving. His most noted productions were "Nature" for the Constellation, the "Genius of the United States" for the frigate of that name and "The River God" for the East India ship Ganges. These figureheads were nine feet high and could be removed for repair or in action .- Harper's Weekly.

A City of the Dead.

Bath, from which city Dickens carrled away the immortal names of Pickwick and Snodgrass, holds relics of the master. His tobacco jar and beer jug are still plously preserved at the Saracen's Head. But, though Dickens wrote gloriously of Bath, he never really liked the place. "Lander's ghost goes along the silent

streets here before me," he writes in 1808. . . . "The place looks to me like a cemetery which the dead have succeeded in rising and taking. Having built streets of their old gravestones, they wander about, scarcely trying to 'look alive.' A dead failure." Read Only Women Authors. Misandry occasionally has its uses.

Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous success of the well known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., as compounded in D.D.D. Prescription.
